DIGITAL IMAGES

# DIGITAL IMAGES

SESSION	IMAGES	PRICE
Standard	15	\$275
Mini	10	\$195
Full	20	\$360

*Prices are exclusive of the session fee*

Includes a custom phone app containing a gallery of your images

*Newborn sessions also include a cute little announcement video*

Images are delivered as a digital download in high resolution, without watermarks and are suitable for large prints.

You can expect to choose images from a gallery of 18-22 images for standard sessions, 12-15 images for mini sessions, or 25-30 images for full sessions. Any extras can be purchased as a set as well.

We can recommend premium print stores for you.

# INFORMATION

PART ONE

## SESSIONS

We offer sessions for newborns, maternity and babies. Our goal is to capture these precious moments in your life. We photograph in our commercial studio in Osborne Park, 10-15 minutes north of Perth city, as well as in our professional home studio in Hilbert, 35 minutes south east of Perth city.

All of our sessions include family/sibling/parent photos. You can choose 20 images for full sessions, 15 images for standard sessions, or 10 images for mini sessions. Any extras can also be purchased.

## NEWBORNS

The ideal time to photograph newborns is between 4 and 12 days of age, as they are more sleepy and curl up easily. Sessions provide ample time for feeding and comforting, and take 1.5 – 2.5 hours for standard sessions, 1 – 1.5 hours for mini sessions, or 2 – 3 hours for full sessions.

I have a wide variety of props to choose from and I like to style your session to what you like.

Bookings are essential and should be ideally tentatively booked based on your due date, and then once your baby is born please contact me to choose a time for your session. This allows me to guarantee that I'll have time available for you no matter if your baby arrives early or late.

## MINI MATERNITY

The best time for the session is usually around 30 - 35 weeks - late enough for your bump to show, but not too late to be uncomfortable or have any early surprises :)

I have a wide variety of dresses/sashes that you're welcome to wear. Sessions take approximately half an hour.

## COMBINED NEWBORN AND MATERNITY

We also offer combined maternity and newborn sessions, where you can include a handful of photos (up to 7) from your mini maternity session along with your newborn photos in one combined package of 20 photos. If you'd prefer more than a handful of maternity photos, I'd recommend booking separate sessions.

## BABIES

Babies age so fast, so it is important to capture these moments to remember for years to come. We photograph babies aged 4 months or older, and take approximately 1 hour for full sessions, 45 minutes for standard sessions, or half an hour for mini sessions.

# INFORMATION

PART TWO

## GIFT VOUCHERS

Gift vouchers are one of most memorable gifts you can give to an expecting family. It is the gift that keeps giving many years later, as it one of the most important times in their life.

You can order a gift voucher completely online, and we'll email it to you immediately.

## ONLINE GALLERIES

Your photos will be ready within 1 day from your session, after which time you'll be sent a link to an online gallery where you can decide on which images to purchase in the comfort of your own home. There are no hidden charges and we do not pressure-sell to you like a lot of companies do.

There is no minimum spending limit, so if we don't capture what you are looking for then there is no pressure to purchase.

We accept payments by Visa/Mastercard, Bank Transfer, Paypal and Afterpay.

## BOOKING YOUR SESSION

The easiest way to book your session is via our website at <http://swtdr.ms/book>  
You can select your booking time from my calendar and pay the session fee with Visa/Mastercard which will secure your session time. For newborns in advance, simply book based on due date and I guarantee that I'll have time available for you no matter if your baby arrives early or late.

After you book your session, I'll send extra information with tips on how to prepare for it along with our studio location.
